

# MUHAMMAD HUSAIN ABOUTALEBI

Software Engineer

## About Me

Full-stack developer with experience designing and building end-to-end software solutions, including database architecture, UI wireframes, system design, backend development, and deployment-ready implementation. My professional projects reflect strong problem-solving skills, attention to product quality, and the ability to deliver practical, scalable applications. Selected work is available on my portfolio website.

## Languages

English: Fluent | German: Conversational | Persian: Native

## Experience

### 2025 - Now

Cooperation Type: **Remote**  
Destination Country: **Any**  
Position: **AI, Software, and Mechanical Engineer**  
Platform: **karlancer.com**  
Worked as a freelancer on Karlancer.com, collaborating with clients and companies on programming and design projects. Delivered customized digital solutions by analyzing project requirements, developing software features, creating design assets, and communicating effectively with stakeholders. This experience strengthened my technical, creative, problem-solving, and client-management skills in real-world project environments.

### 2024 - 2025

Cooperation Type: **Remote**  
Destination Country: **Iran**  
Position: **Full Stack Designer**  
Credit: **Datis Green Innovators Toos Industrial Group**  
Collaborated with Datis Green Innovators Toos Industrial Group to design product labels for real-world commercial products. This experience strengthened my practical design skills, attention to detail, and ability to create professional visual assets aligned with client and product requirements.

### 2022 - 2024

Cooperation Type: **Remote**  
Destination Country: **Canada**  
Position: **Full Stack Developer**  
Credit: **BitCan Geosciences & Engineering Inc.**  
Contract Company: **MaxC**  
Worked remotely as a full-stack developer at MaxC, contributing to the development of geomechanics software. This role strengthened my experience in building technical software solutions, collaborating remotely, and applying full-stack development skills to engineering-focused applications.

## Education

### 2019 - 2024

Degree: **Bachelor's Degree**  
University: **Amirkabir University of Technology (AUT)**  
Location: **Tehran, Iran**  
Major: **Mechanical Engineering (Mechatronics)**  
My Mechatronics Engineering background strengthened my analytical thinking and foundation in software, automation, intelligent systems, and interdisciplinary design, enabling me to apply engineering principles to AI and software projects.
